DANCE SOCIAL SUCCESS

"When Summer Comes-
Sport is King -"

* * * * *

TEAMS CHANCES FOR ANOTHER BASEBALL CHAMPIONSHIP CROW

After the completion of the first week of baseball training under the direction of Lefty Zimmerman, Ed. Adv. and Coach, the Ocean Ponders are again looking like a winning combination on the field. With the arrival of the Katzenjammer twins, Brooker and Gonzales, the two All-League Basketball stars, the infield problem is settled. The present lineup for the infield consists of Gonzales at third, Brooker at short, Doc Melton at the keystone bag, and Lt. S.L. Moise, former Clemson star, at first. This present setup will relieve Zimmerman of sharing both the first sack and pitching burdens; and he can be placed in the outfield on the days he is not throwing his sidearm slants at the opponents. The other part of the twirling assignment is well taken care of by Evelio Quesada, one of the leading hurlers in the district last season. Quesada is available not only for the mound but

200 YOUNG PEOPLE ENJOY FROLIC ; JACKSONVILLE BAND PLEASES EVERYONE

-0-

Last Thursday evening at the Lake City Woman's Club, the Cavalier Club of Company 451 staged one of the most successful dances that has ever been put on in Lake City. One hundred invitations were mailed to the younger set of the nearby cities, and most of them were accepted by the quests, resulting in a large attendance. Several of the fair sex from Live Oak, Jasper, Lake Butler and McClenny were noticed at the dance. The entire membership of the Bachelor's Club of Lake City, one of the most exclusive mens organizations in this part of the state attended with their most beautiful of the fair sex. The Lake City High School group also attended in a large way, as well as members of Companies 450 and 453. Several of the officers of these two companies were also guests of the club.

Acting as a reception committee for the club was Mrs. James Dollar, Lake City; Miss Vera Roberts, Lake City, and Miss Irene Branning, St. Petersburg; the latter two being our charming FEPA instructors who found their popularity with the men by the grand way the dance was carried on. Not to be overlooked was the warm greeting given each one of the guests by our congenial Educational Adviser, Mr. D.E. Zimmerman, who had the art of making each and everyone feel at home. Refreshments of punch and cake were served during the intermission period by the members of the Club. The music was furnished Milton Furr and his Southlanders of Jacksonville and they delighted the crowd very much by their many responses to requests for favorite numbers. With this dance proving to be such a success the Club is now planning on staging a real hop for the Easter Holidays. If it is any better than this one we won't be able to stand it.

EDITORIAL

" DREAM NOT ---- LET'S DO "

A great philosophical writer once# passed out the thought that one should not dream great things all the day long, he should do them.

It is a thought worthy of mention here. It has been told you and is true , that all great accomplishment's have been made by dreamers. But they did not always dream. When the outline and details of their dream plan was finished , they went to work and made their dreams come true. As a young military student Napoleon dreamed of a world empire. But at that same time through concentration and study he made himself one of the greatest political and military geniuses of all time, so that he could grasp accomplishment of his dream.

Robert Louis Stephenson it is said dreamed in whole cloth many of his lovable lyric poems. But Stephenson worked and wrote many years before he was a great writer. And when he dreamed he did not let them remain ethereal, he put his poems on paper.

Today , you and I are no doubt dreaming of the worlds we long to conquer, mental, geographical, political, social, and others. It is noble to dream , but that in itself is not enough. Realize what you must know to get their and start acquiring that knowledge today. All the world can't stop a man who dreams vividly and works earnestly.

THE COMMANDING OFFICER COMMENDS COMPANY, 451 - CCC * * * *

When the alarm rang out at 2:30 A.M. , March 13, 1935 you turned out. The cooks under Philip Fernandez had breakfast, consisting of creamed beef on toast, grits, cereal, sweet milk, coffee and oranges, promptly at 3:A.M. You were standing by at 3:30 A.M. to entruck. Frost was upon the ground.

You didn't know where you were going and didn't give a damn!

" Right On Then! "

That is what I call spirit and what makes me proud of you all.

Yesterday the wind blew a gale, sand whirled around and into every crack, even into the food being cooked. Trees bent under the force of the wind; Ocean Pond had waves four feet high. (I know, because I dove into them for a swim.) We hoped we wouldn't

have a fire. Thank the Lord , we didn't. But our neighbors in Ocala National Forest , 220 miles away had one., and called for 100 of our company to come over and help.

When I called for volunteers at 2:30 A.M. I had to almost fight you off with a stick.

As I write this you are out there now. When you get back you are going to eat ! The big reward for a job well done !

Thanks for a good company ---

R. E. Odell,
Capt. 345th Inf.,
Commanding.

SCOTCH BOY'S BRIGADE HAVE TRAFFIC LIGHT IN MESS HALL

"Green Light " For Go Ahead, Eat,
"Red Light " For Stop , Be Quiet

According to Popular Science : the Aberdeen, Scotland, battalion of the boy's brigade has a mess hall traffic light. It consists merely of three electric lights, yellow, green and red, mounted on a vertical board and controlled by switches. When the commander wants to say something he switches on the yellow light which is a warning for silence, and then the red light which means absolute cessation of all noise. When the green light is on the boys may eat, or if they have finished, leave the table. They claim to have found the method very satisfactory, making favorable impressions upon visitors, and working better than blowing a whistle.

This information is contained in the "Our Readers" page of the April, Popular Science.

HERE AND THERE ABOUT CAMP

Sgt. Bud Fox states that he will not re-enlist for the next enrollment period.

Mess Sgt. Terrie seems to have found that all his hard studying of geography at school has at last found some good in NEVADA.

Pontoon Steward Story states that he had a swell (head next morning) time at the dance. This was easily noticed by the many steps he and his gal did for the benefit of the company.

Prody Owens, the guard, asks that all turn the lights off after the wee hours of the morning.

Claude Chancey wants to know why Zimmerman is all the time asking for his recipe for making doughnuts. Must have a girl who can cook.

Tom Bornman seems to have found he only has eyes for the little red head to whom he is giving the grand rush.

Leon Lloyd, the Asst. Ed. Adviser, seems to have taken the place of K.F. Baker as the camp's most popular letter receiver as on Monday his ~~###~~ total for the day was five, mostly from the fair sex.

Paul Moffett, one of our former dispatchers, tied the marriage knot in Daytona Beach last Sunday. The lucky lady was Miss Francis Patterson, formerly of that city, but now of Lake City.

Mr. Goodbread and Lt. Settle made short but interesting talks on Safety to the men Monday evening in the Recreation Hall.

All the men are anxiously awaiting the day when the new pool tables will be able to be played upon.

AK Housman seems to have a hard time controlling the acts of the new officer's orderly ~~##~~ as he did his former buddies. He has more time to rest than Tommie does.

What worries us is the way some of the men get by with murder and the rest of we poor tired men carry on. (Apologies to the AK barracks!)

EXTRA. EXTRA. EXTR. MONK RICHARDSON attended school Monday night in Lake City. All the men seemed to enjoy the new addition to the class.

We hear that Bennett and Fox spent three hours in Jacksonville trying to find the two girls that came to the dance from that city.

Of late the cock force has been very "Cupid-minded."

For model "Lemon Pie" see Thomas Bornman.

The kitchen force is proud to own the pitcher for 451 this season, Evelio Quesada.

The girls are now wild over George White's new style of haircut. 451 boys are trending toward this style, Fernandez, Ochoa and many others.

HERE AND THERE ABOUT CAMP

Due to his perfect fulfillment of his duties, Vincent Carlisle was awarded a prize of a one way ticket home.

Harry Meade has just returned from home. He was there for the purpose of asking his choice to marry him when his time is up.

Robert Weldon, alias "Wild Cat Weldon" former wrestler has just arrived from a very pleasant stay at his home in Alabama.

Mr. Terrie's unexpected and abrupt visits to Lake City make us wonder when we eat the cake.

Barfoot, alias Papa Popeye, has had an operation for the funny knot on his eye, so watch your girls boys for here comes the "ladies Man."

Chink Abreu is home for a short visit in good old Tampa.

Armando Avin, alias, "The Lonely Wolf", winning his title due to infrequent visits to Lake City since coming to camp, has come back to the kitchen force as dining room orderly.

We are glad to know that Story welcomes Lambert in the family.

For the purpose of establishing a new camp we now have six student cooks, namely, John and Marion Howell, Quesada, Manuel Lopez, Thomas Bornman, and Bill Perry; and for Mess Sergeant "Mr. Claude C. Chancey of Southern Florida."

The mess officials readily accept the appreciation that has been shown for them for giving the kind of foods that we are now financially able to furnish.

The mess force is proud to claim such a capable young man as Mr. Terrie, who can also at the same time hold his social standing in Nevada.

EDUCATIONAL DEVELOPMENTS THIS PAST WEEK

Two new courses were started in the Educational Department this past week in the form of a course in Cooking under the guidance of First Cook Claude Chaney. The other course that was put into effect this week was a course in Motor Mechanics under the supervision of Freddie Owens. No doubt hereafter these courses will be increased in the number of men attending because both of these are very helpful to the men of Company.

Mr. Zimmerman the C.E.A. will begin a class in Umpiring next week to those of the baseball squad and no doubt this will be very helpful to the men on the team this coming season.

Leon Lloyd the Asst. C.E.A. will go in the Bookkeeping Course a bit deeper in this next month's work in his group.

HUGE FIRE IN OCALA FOREST

Call 451 Boys To Help;

Alarm Given at 2:30 A.M.

Wednesday, March 13, ---

Aided and abetted by a high, driving wind, ravaging flames swept over Ocala National Forest yesterday afternoon, and at recent returns were still going strong. According to reports 15,000 acres had been burned by night and the fire had a front line of several miles. Company 1420, at Ocala, found her valiant best insufficient to control the raging fury of this monster and calls were sent out to nearby companies for aid.

This Company was among the ones called upon. Captain Odell, Commanding Officer, was notified shortly before 2:30, and he proceeded to fall the company out in a systematic fashion. At 2:30 sharp the gong was sounded furiously. Cold and frost greeted the boys when they tumbled out of bed, dressed, and fell into formation in the company street. One hundred men were asked for. Volunteers responded quickly.

The cooks, awakened shortly before the alarm had breakfast prepared by three o'clock. The men ate, and putting on heavy, warm clothes were ready to embark at 3:30. Only smooth, speedy work on the part of the officer's and entire company, made it possible for these fire fighters to so speedily prepare themselves for action, - and everyone in the camp should be proud of the accomplishment.

" EVERYDAY IN EVERYWAY " COMPANY 451 IMPROVES

Every effort is being made upon the part of the officials of the camp to provide the a continually improving camp. One of their latest efforts tends to stimulate interest in education and self betterment on the part of each individual of the company. Capt Odell is sponsoring a regular Monday night series of meetings of the entire company. At that time very practical and instructional lectures will be delivered to the men. On tap for this Monday are speeches from Captain Odell, a lecture on safety from Mr. H. B. Goodbread, a message on Health from Lt. Roy J. Settle, and a talk from Lt. S.L. Moise. These should prove of inestimable benefit to the members of this company.

Another improvement of startling nature is the murals to decorate the Recreation Hall, which are being painted by Karl Eugene Fortess, brilliant young Company artist, from Woodstock, N.Y.

"TING -A * LING 'S" TO AROUSE

BOYS FROM SLUMBER

The Commanding Officer, Capt. R. E. Odell informs the staff of the camp paper that the Camp Mechanics are rigging up a system of alarm bells which have been devised to wake the fellows up in the mornings, - instead of the guard having to go through the barracks and blow a whistle.

It is hoped that this system will be more efficient than that which has been in use.

THEREFORES -----

1. The devil raises hell;
Bill Terrie, Mess Sergeant raises hell;-
THEREFORE, Bill Terrie is a devil.
2. A cow croons;
Jack Burke croons;
THEREFORE, Jack Burke is a cow.
3. A fox terrier barks and growls;
Dewitt Story barks and growls;
THEREFORE? - Story is a fox terrier.
4. A whale puffs and blows;
Tommy Houseman puffs and blows,
THEREFORE, - Houseman is a whale
5. A politician shoots the bull;
Lefty shoots the bull;
THEREFORE, - Lefty is a politician.
6. A live wire burns;
Claude Chancey's girl burns;
THEREFORE, - she is a live wire.

"WHO IS WHO" BALLOT

Below are spaces to record you preferences concerning the members of this camp. Write the names in the proper spaces and cut out this ballot and drop you vote in the box in the Recreation Hall provided for this purpose. This vote is all in good, clean fun just to see what the boys think of one another. So hurry up and get your vote in for your favorite and watch next week for the tabulation of results. This has no connection with the "Honor Award."

I THINK THAT -

POPULAR SONG HIT

This is a song that is exceedingly popular with the boys of our camp, and might in a way be called their "theme song." Simple and unpretentious, and founded on a motif of sincerity, but with a tune that catches, we give you,

A SHANTY IN OLD SHANTY TOWN

It's only a shanty in old shanty town,
The roof is so slanting it touches the ground,

But that tumbledown shack,
By an old railroad track,
Like a millionaire's mansion,
Is calling me back.
I'd give up a palace if I were a king,
It's more than a palace it's my every-
thing,

There's a queen waiting there, with a
silvery crown,
In a shanty in old shanty town.

In either waltz time or fox trot, the above melody is of such simple sweetness that it is destined to continued popularity, such as that enjoyed by "Sweet Sue" and other favorites that refuse to grow old.

Team's Chances Grow (Cont. From Page 1)
also for the infield, having played errorless ball at the hot corner last season. Several other men are showing up well and may crash the regular lineup.

We have heard our regular catcher of last season Henry "Coz" Regalado is reenlisting, and if does everything possible will be done to get him back to 451. On top of that Paddy Dineen, our All-American first baseman is going to reenroll providing he can be sent to this camp. With these two men and discovery of two capable outfielders the District title will be retained at Ocean Pond.
